## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: The instantly claimed supported aluminum fluoride and methods for its use are neither disclosed nor fairly suggested by the closest prior art: Kemp (US 3,907,913 09-1975). Kemp (US 3,907,913 09-1975), neither discloses nor fairly suggests the production or use of an aluminum fluoride supported antimony pentafluoride from which hydrogen fluoride has been removed. The instantly claimed aluminum fluoride is therefore patentable over the teaching of Kemp, the closest prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## **EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gregory T. Lowen on March 26, 2007.

The claims have been amended as follows:

Claim 1, line 2: The following phrase --, and wherein the porous aluminum fluoride on which the  $\text{SbCl}_x\text{F}_{5-x}$  is supported does not contain hydrogen fluoride--has been inserted between the phrase "0 to 5" and the terminal period ".".

Claim 2, line 6: The word [any] has been deleted.
